The Tenth Iraq International Energy EXPO & Conference, Sponsored by The Prime Minister and The Ministry of Electricity, achieves opportunities to enhance cooperation with investment companies specialized in the field of electric energy, as well as to build bridges towards economic integration and encourage investment. Over the years the Ministry of Electricity has witnessed remarkable developments and clearly reflects the prospects of investment in the Ministry of Electricity and the Ministry of Oil to attract companies from all over the world. The focus of the government's concerns is to achieve the required development and reach the stage of self-sufficiency. The specialized participation from multiple companies hosted by the EXPO constitutes a strong base for cooperation with the participants, while approving at the same time the importance of striving hard to empower the private sector and provide investment incentives to achieve our desired goal, which is to solve the electricity crisis in the country.

The sponsoring ministry has provided technical support in previous periods in addition to providing investment and industrial opportunities and exchanging experiences to support and assist entrepreneurs all around the world. Through this EXPO, we invite investors to reflect on the importance of investment and an opportunities in the field of energy in Iraq.
